About the Company

Eden Networks is a service provider of communication services dedicated to high quality integrated system encompassing of all-in-one network solution. We are passionate in bringing the best values and technologies to our clients, while ensuring top-notch quality across our products.

We believe that our strength in virtual network space will allow us to empower our customers on a personalised, strong and robust position. Together with our partners, we want to improve the information delivery and connectivity of our clients as they prepare for the global challenges of the future.

EdenNETWORKS

A SUBSIDIARY OF COSHARE HOLDINGS BERHAD

OUR VISION

Eden Networks aims to establish itself as an innovative trailblazer in the domains of technology, telecommunications, satellite networks, and digital services, both domestically and internationally.

OUR MISSION >>

At Eden Networks, our mission is to provide cutting-edge telecommunications, satellite network, and digital services solutions that empower individuals, businesses, and communities to thrive in the digital era.

We strive to deliver superior services, foster strategic alliances, and drive technological advancements to enable seamless connectivity, enhance economic opportunities, and transform lives on a global scale.

Through our commitment to innovation, reliability, and customer-centricity, we aim to reshape the landscape of telecommunications and satellite networks while contributing to the growth and prosperity of our stakeholders.

Our Market

[Back to Agenda](#)

Maritime:

**Experience
unsurpassed maritime
satellite internet**

Energy Services:

**End-to-end distributed
sites and assets
management**

Rural & Emerging market:

**Bridging Digital Gap in
the unserved and
underserved
community**

Our Solution:

- COTM
- Maritime Broadband, VMS
- C-band Satellite link

- Satellite IoT+LoRaWAN
- VSAT
- PTP/PTMP Air Fibre

- BTS & BTC for Remote areas
- Private Lable MVNO
- PTP/PTMP Air Fibre
- HTS Ka-Band Satellite Link

Our Market

[Back to Agenda](#)

Enterprise Solution:

Grow your network at the same pace as your business

Aviation:

Commercial aviation solutions from a global visionary

Defense:

Enabling safer and more successful tactical and strategic operations

Our Solution:

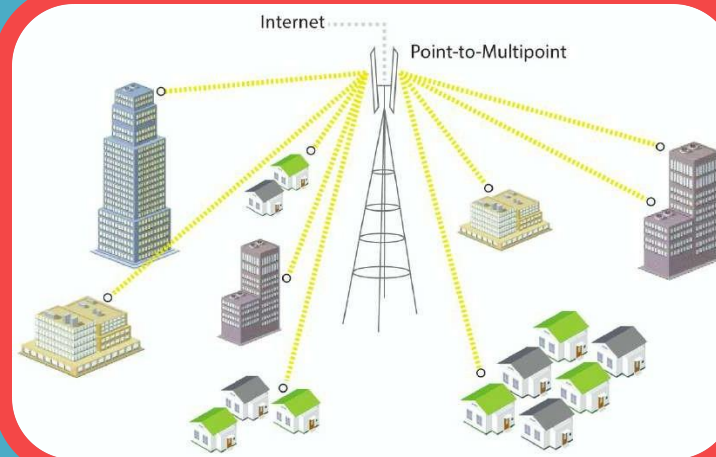

- EDEN Cloud Solution
- Fintel, SSO-DID
- Private Label MVNO
- PTP/PTMP Air Fibre

- COTM
- GPS & GNSS
- SatCom for UAV

- Manpack, COTP
- Tactical SatCom
- HTS Ka-Band Satellite Link

Our Solution:

Terrestrial- PTP/PTMP Air Fibre

Special Features:

- Support **200+** subscribers per radio
- Client speed up to **1.75Gbps**
- Built-in GPS Synchronization
- Dual SFP+ 10Gbps fiber interface
- 5.150-6.425GHz operating frequency
- 90° sector dual linear X-pol antenna
- 24dBi adaptive beamforming antenna

Business Model & Revenue/ Customer:

- B2C: Monthly subscription model - Private ISP (Revenue Sharing)
- B2B: Franchise Business Models – COCO, FOCO, COFO, FICO, FOFO

Customer

- **200,000 Subscribers in 12 months**

..and many MORE
opportunity for Private Lable
MVNO!

EduData Device Bundle Package

Details	EDU.Circle's EduData Packages
Monthly commitment	RM68
Internet	60GB High Speed
Hotspot Data	Allowed, follow main quota
Data Rollover	YES (next 1 month validity)
Unlimited Calls	N/A
SMS	100
Free Device	YES (dongle)
Roaming	N/A
Contract period	min 36 months

EXAMPLE

- Optional Group Takaful coverage (PTPTN *takaful*)
- Airtime/Credit transfer
- ZERO Deposit One Dongle
- AirFibre WiFi Complimentary access (TBA)
- Other benefit to be added in progress

- Individual Package (Postpaid Main)
- A-la Carte Subscription Packages
- TKA Mobile Packages (prepaid/postpaid)
- Foreign Student/Workers (FW/TKA)

Project #1: EDU.Circle - Students EduData Package

Eden**NETWORKS**

A SUBSIDIARY OF COSHARE HOLDINGS BERHAD

Infra Provider (MNO)

Solution Provider
(MVNA/MVNE)

Private Label
MVNO

Mobile – MVNO/MVNE/MVNA

EdenNETWORKS****

i.e.:
EDU.Circle
by KPT/MyREN

Exclusive for
KPT Group
members and
staffs

- Business Model Concept: **60GB data priced at RM 68** per month for the students. Possibly this can be charged as part of their tuition fee, or PTPTN/KPT can subsidize via scholarship or loan program. A statement like "Apply PTPTN and get *free* Data Dongle with 60GB High Speed Data monthly" can be used as marketing tool too
- The market size we are looking at is **around 1.2mil students** all over Malaysia (IPTA, IPTS, Polytechnic, Colleges, Training Centres, etc), with over **380K intake yearly**

Localization

- To 'Localize' EDEN's MVNE Product for KPT who will operate as 'Lightweight MVNO'

TelCo as a Service

- Providing Telecommunication facilities and services through SIM Card and Applications

Creating Values

- Creating potential and qualified KPT's own home-grown outlet chain network in telecommunication business

EDU.Circle's Value Proposition

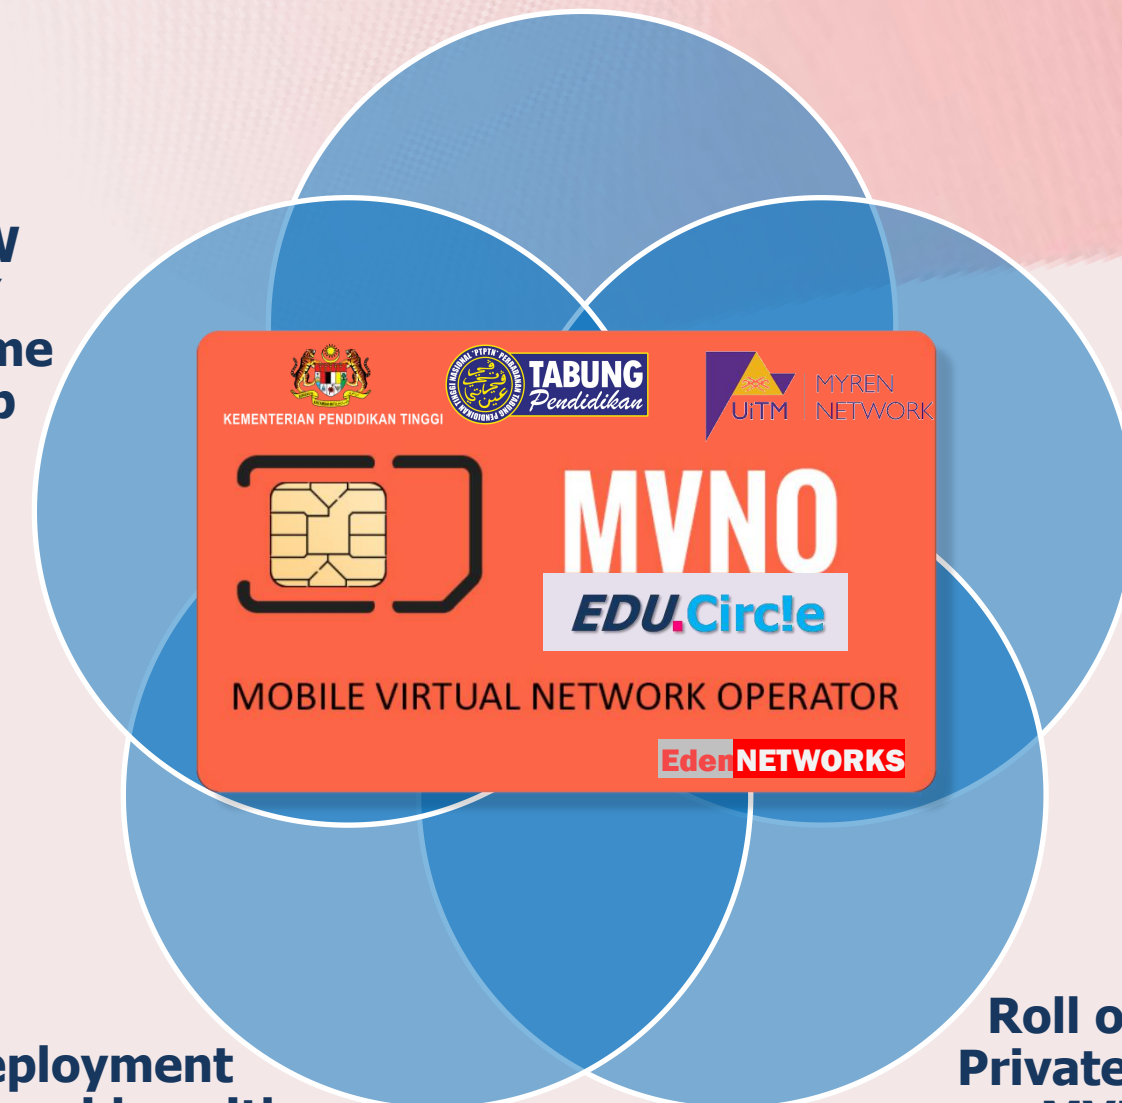

- Product that are Honest, Competitive, and Advanced
- KPT's owned MVNO Brand (Postpaid, Prepaid, Hybrid):-
 - KPT Pack, Special Pack (VIP) with auto reload, Commemorative Pack (Special Edition), CSR (share or donate data quota), etc
- Providing telecommunication facilities and services at competitive price, high quality, best value, and the first of it's kind for a Govt Agency in Malaysia
- Revenue sharing business model

Create a NEW
and STEADY
revenue/income
for the Group

A special
initiative to
propel KPT
Group Revenues

Deployment
nationwide, with
Group branch offices
could potentially be a
service center

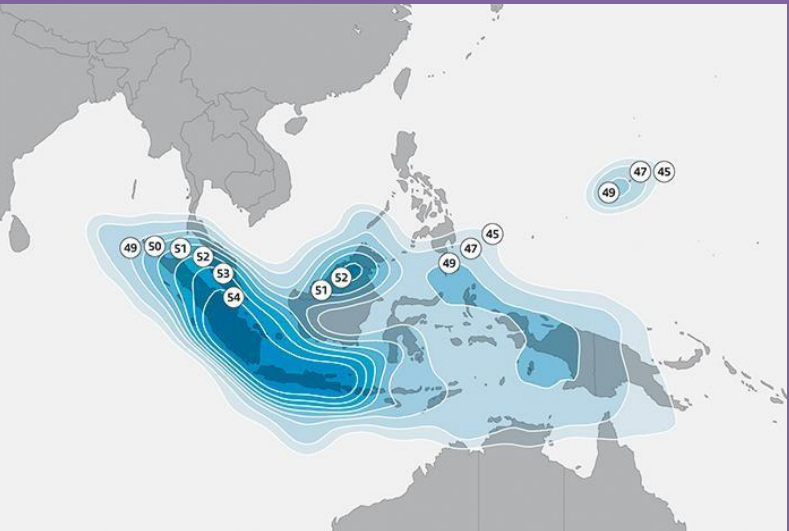

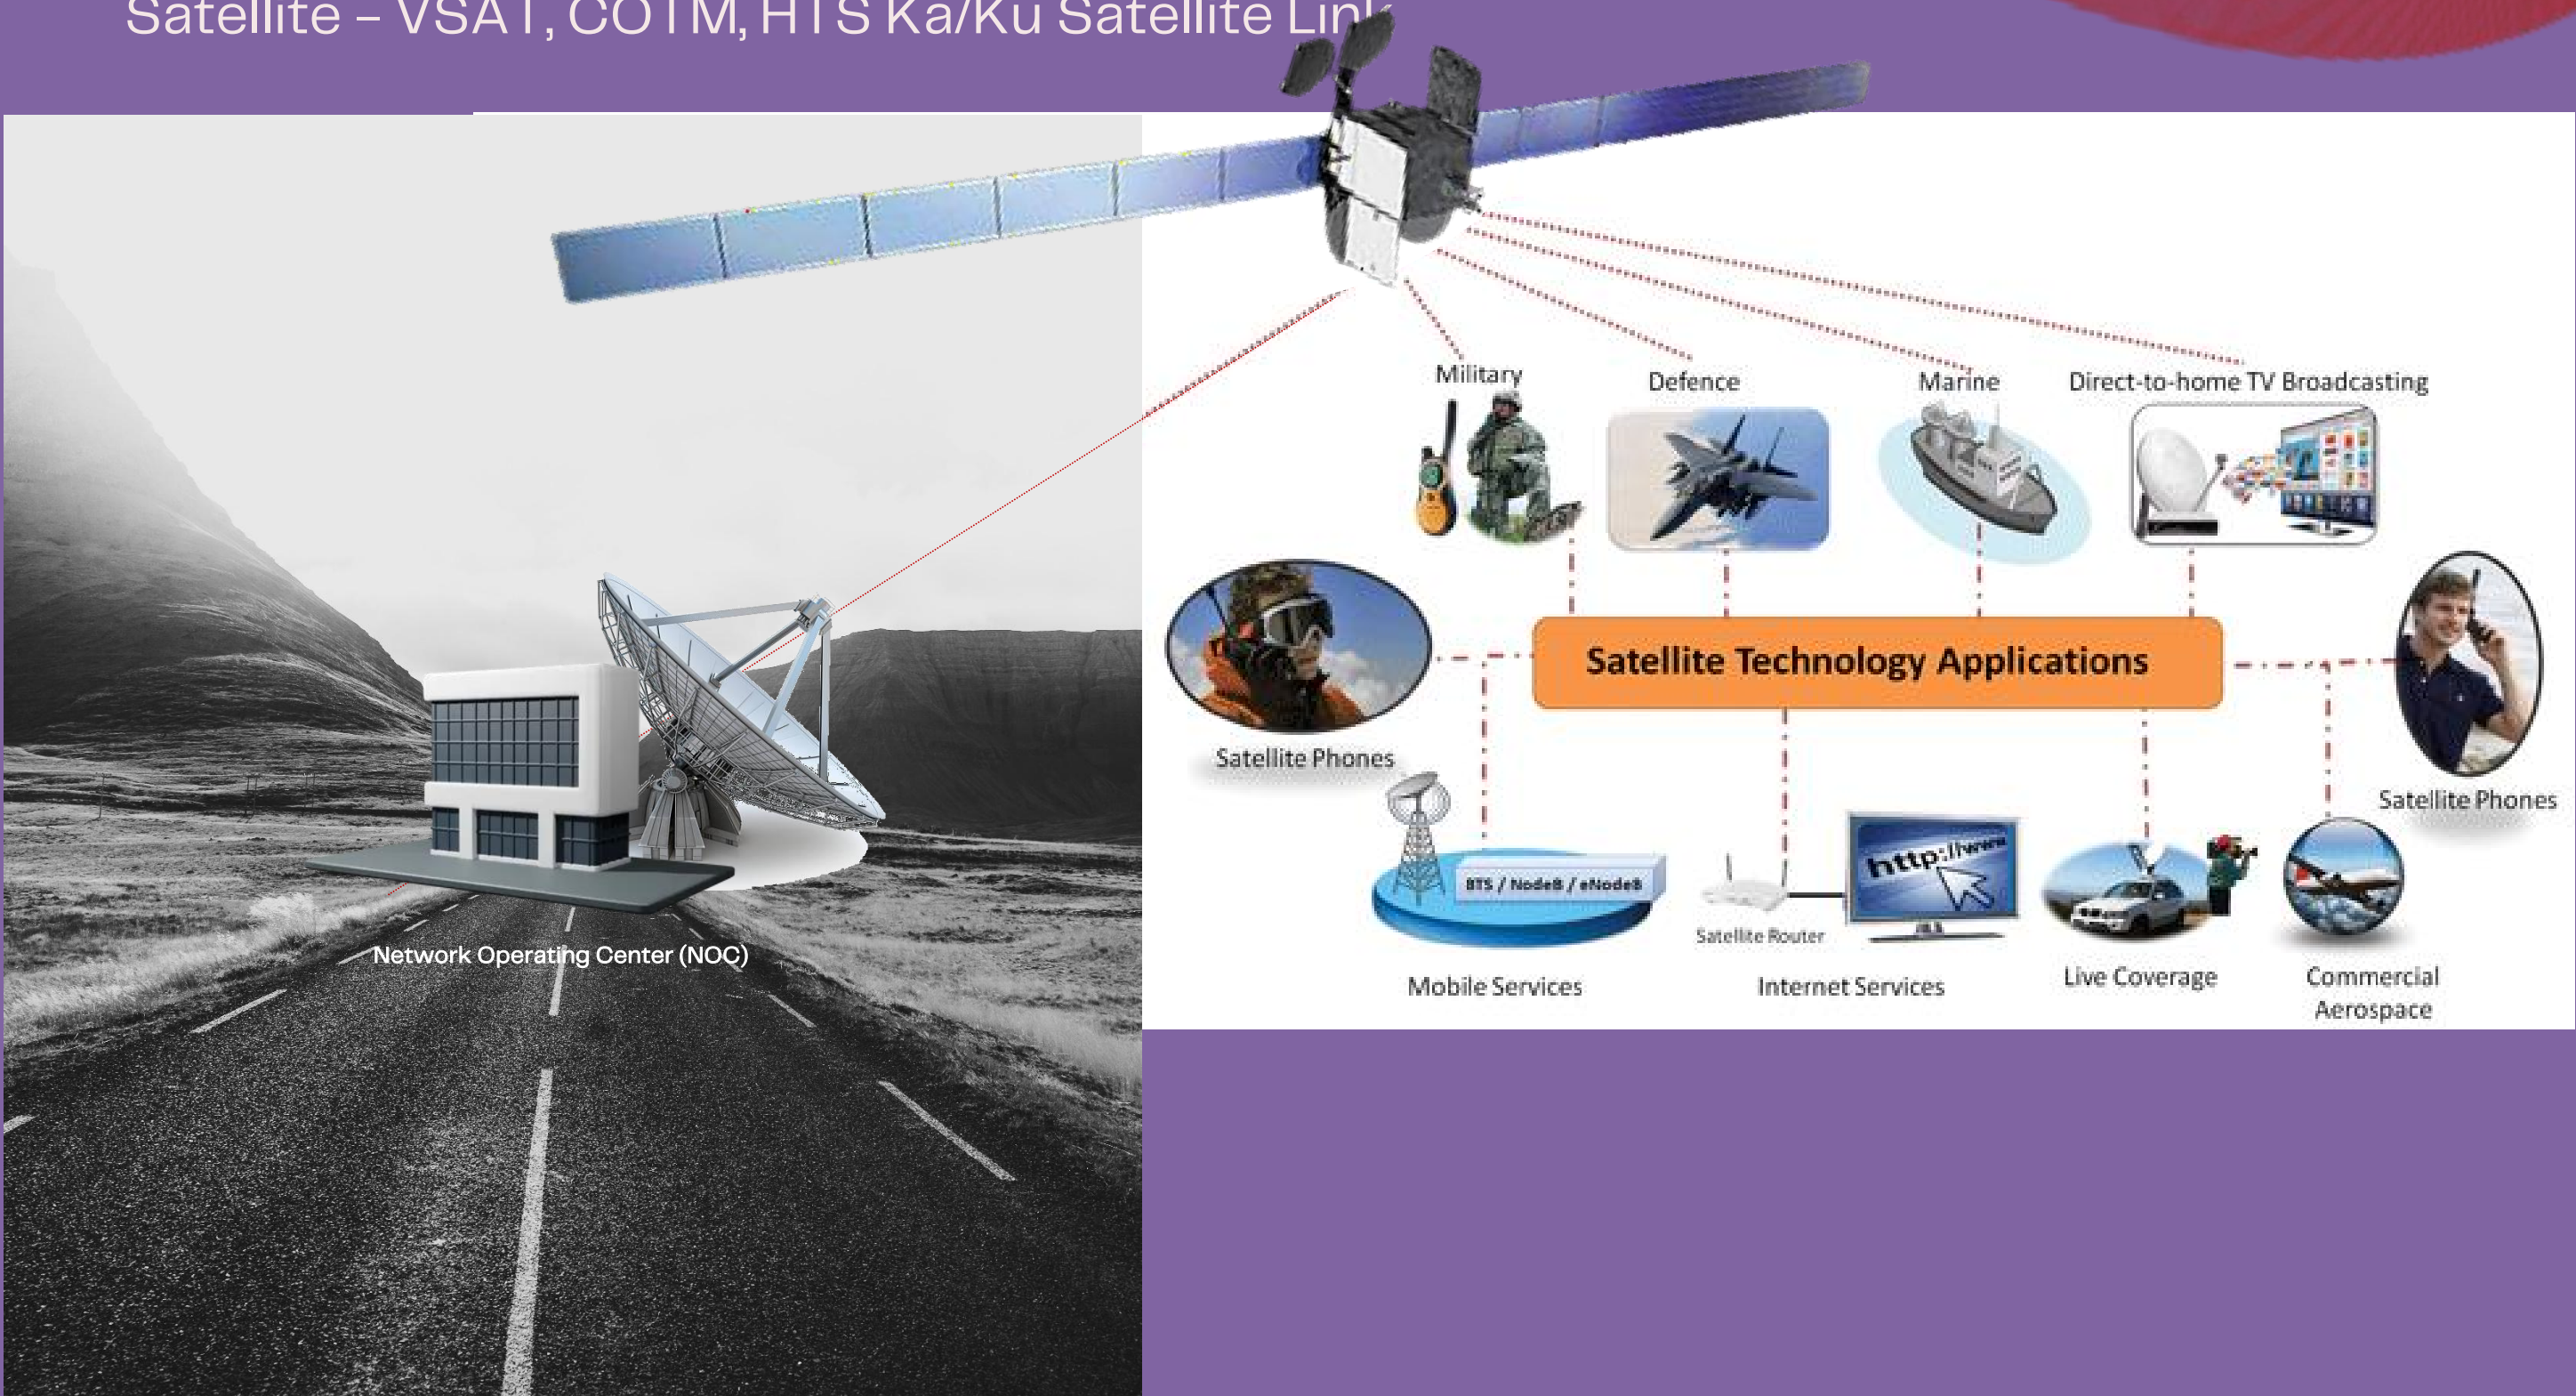

Roll out as
Private Label
MVNO

Our Solution:

Satellite – VSAT, COTM, HTS Ka/Ku Satellite Link

Satellite– VSAT, COTM

Satellite VSAT

**Premium Satellite over
Malaysia Coverage using
High-Throughput (HTS) Satellite
Technology**

Satellite– VSAT, COTM

High Speed Wi-Fi connection in conformance to MCMC BWA requirement

SLA of 99.3% connection availability

100% readily Satellite Broadband coverage

It focuses on the area that does not have 4G data cellular broadband coverage.

Cost-effective deployment to remote and low populated areas.

Fast time of deployment

Ready capacity to deliver within 5 days

24/7 Network Monitoring Support

High-throughput Ka/Ku - band providing connectivity 99.3% according to SLA

Smooth Onboarding Flow

Less equipment (CPE) and plug & play VSAT connectivity

Specialize in Network & Coverage Design

Premium Satellite for better quality assurance

SAMPLE APPLICATION BANDWIDTH PROFILE OR REQUIREMENT

Chatting / Messaging
e.g. WhatsApp, Facebook Messenger, Viber, Telegram

200 kbit/s

Email
e.g. Gmail, Outlook, Thunderbird

300 kbit/s

Social Media
e.g. Facebook, LinkedIn, G+, Twitter, Instagram, Pinterest

500 kbit/s

VoIP Calls
e.g. VoIP Calls, Skype Calls, WhatsApp Calls

300 kbit/s

Video Calls
e.g. Skype video calls, Facetime video calls,

1.5 Mbit/s

Web browsing
e.g. Google, Yahoo!, Bing, News

500 kbit/s

File Sharing
e.g. Dropbox, Google Drive, Box

2.0 Mbit/s

Video streaming
e.g. Video streaming from the web, streaming media at standard resolution

3.0 Mbit/s

Video streaming HD
e.g. Netflix, iTunes Video, Google Play Movies, Amazon Prime Video

5.0 Mbit/s

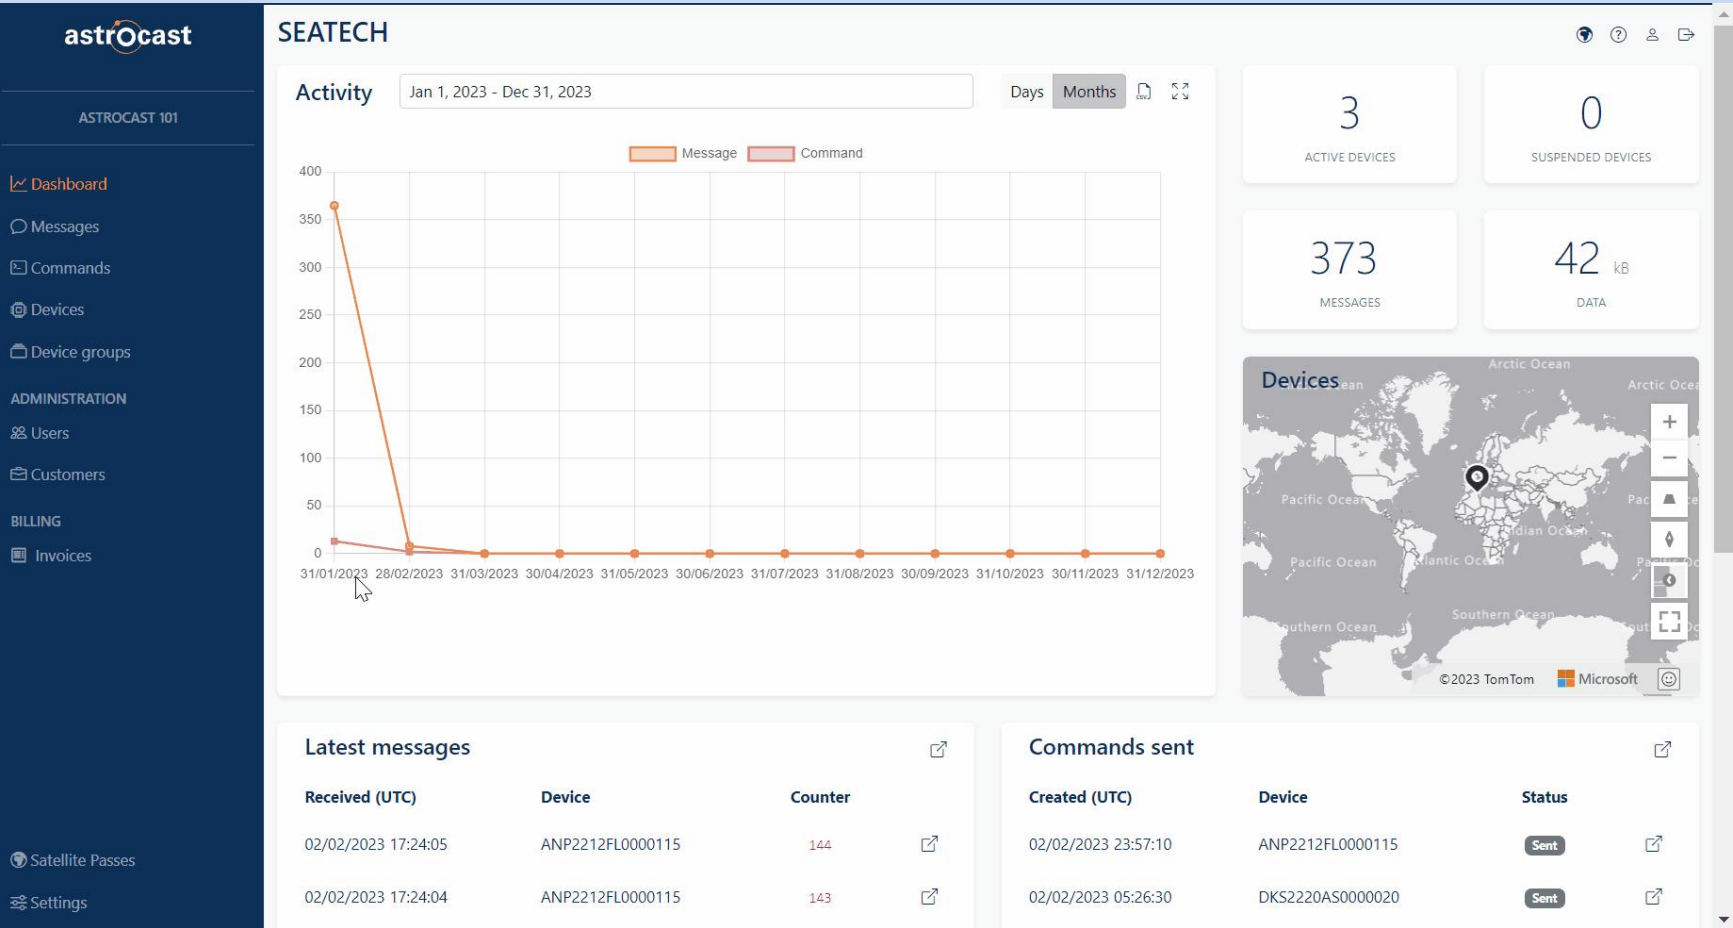

Our Solution:

Satellite – LoRaWAN, IoT

Satellite– IoT, LoRaWAN

The winning combination - Sensors to Data-driven descision:

“We track assets, monitor the environment, and save lives by building and operating the most advanced and sustainable satellite IoT network.”

Satellite- IoT, LoRaWAN

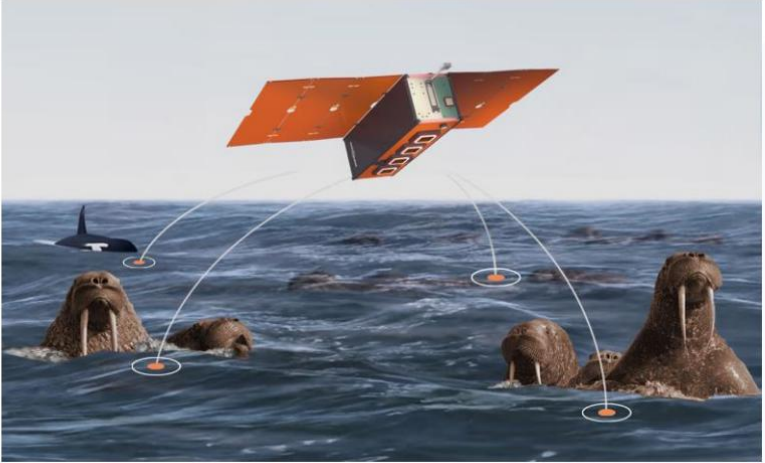

Reduction/Monitoring of Emissions and Leaks

- Fleet Management, route optimization
- Alternative to unnecessary inspection/delivery visits to remote locations
- Eliminating unnecessary fuel top ups
- Maritime sector – Process and operational optimization to increase safety and reduce gas emissions

Water management

- Global monitoring of oceans
- Monitoring of glaciers, rivers and other water bodies
- Monitoring of water infrastructure
- Agriculture and Livestock
- ...

Our Solution:

Digital Applications – Fintel, SSO-DID, Cloud Solution

Digital – Fintel, SSO-DID, Cloud

Cloud Services:

eden**cloud**

eden**PBX**

eden**VoIP**

Single Sign-On (SSO):

Minimal up-front investment

our OPEX-gearred model enables you to deliver MVNO services built and hosted on our network-independent MVNE platform

Best in-class technology

includes SCP, GGSN/PCRF, HLR/HSS, IN/OCS, VAS, SIM management, and OSS/BSS

Flexible operational management

for billing, business workflow, product set-up, service delivery, customer care, web service integration, and reporting

Easy integration

covers all systems and infrastructure including connections to 3rd party systems via open APIs

Robust Operations and Business Support Systems

complete control of your business and information on customer status via a secure, easy-to-use portal

Multi-tenant architecture

plus secure, carrier-grade redundant infrastructure

Diverse commercial models

from a brand extension, mobile loyalty and second brands to corporate propositions for employees

Global reach and dependability

leverage Tata Communications' global mobile data and voice network with regional PoPs on five continents

Technology agnostic connectivity

service supports deployment across WiFi, 2G, 3G, 4G, 5G

Multiple service options

supports pre-pay, post-pay and hybrid subscriptions, as well as multi-IMSI and M2M/IoT connectivity, plus multi-MSISDN and global WiFi roaming services

Launch on time and budget

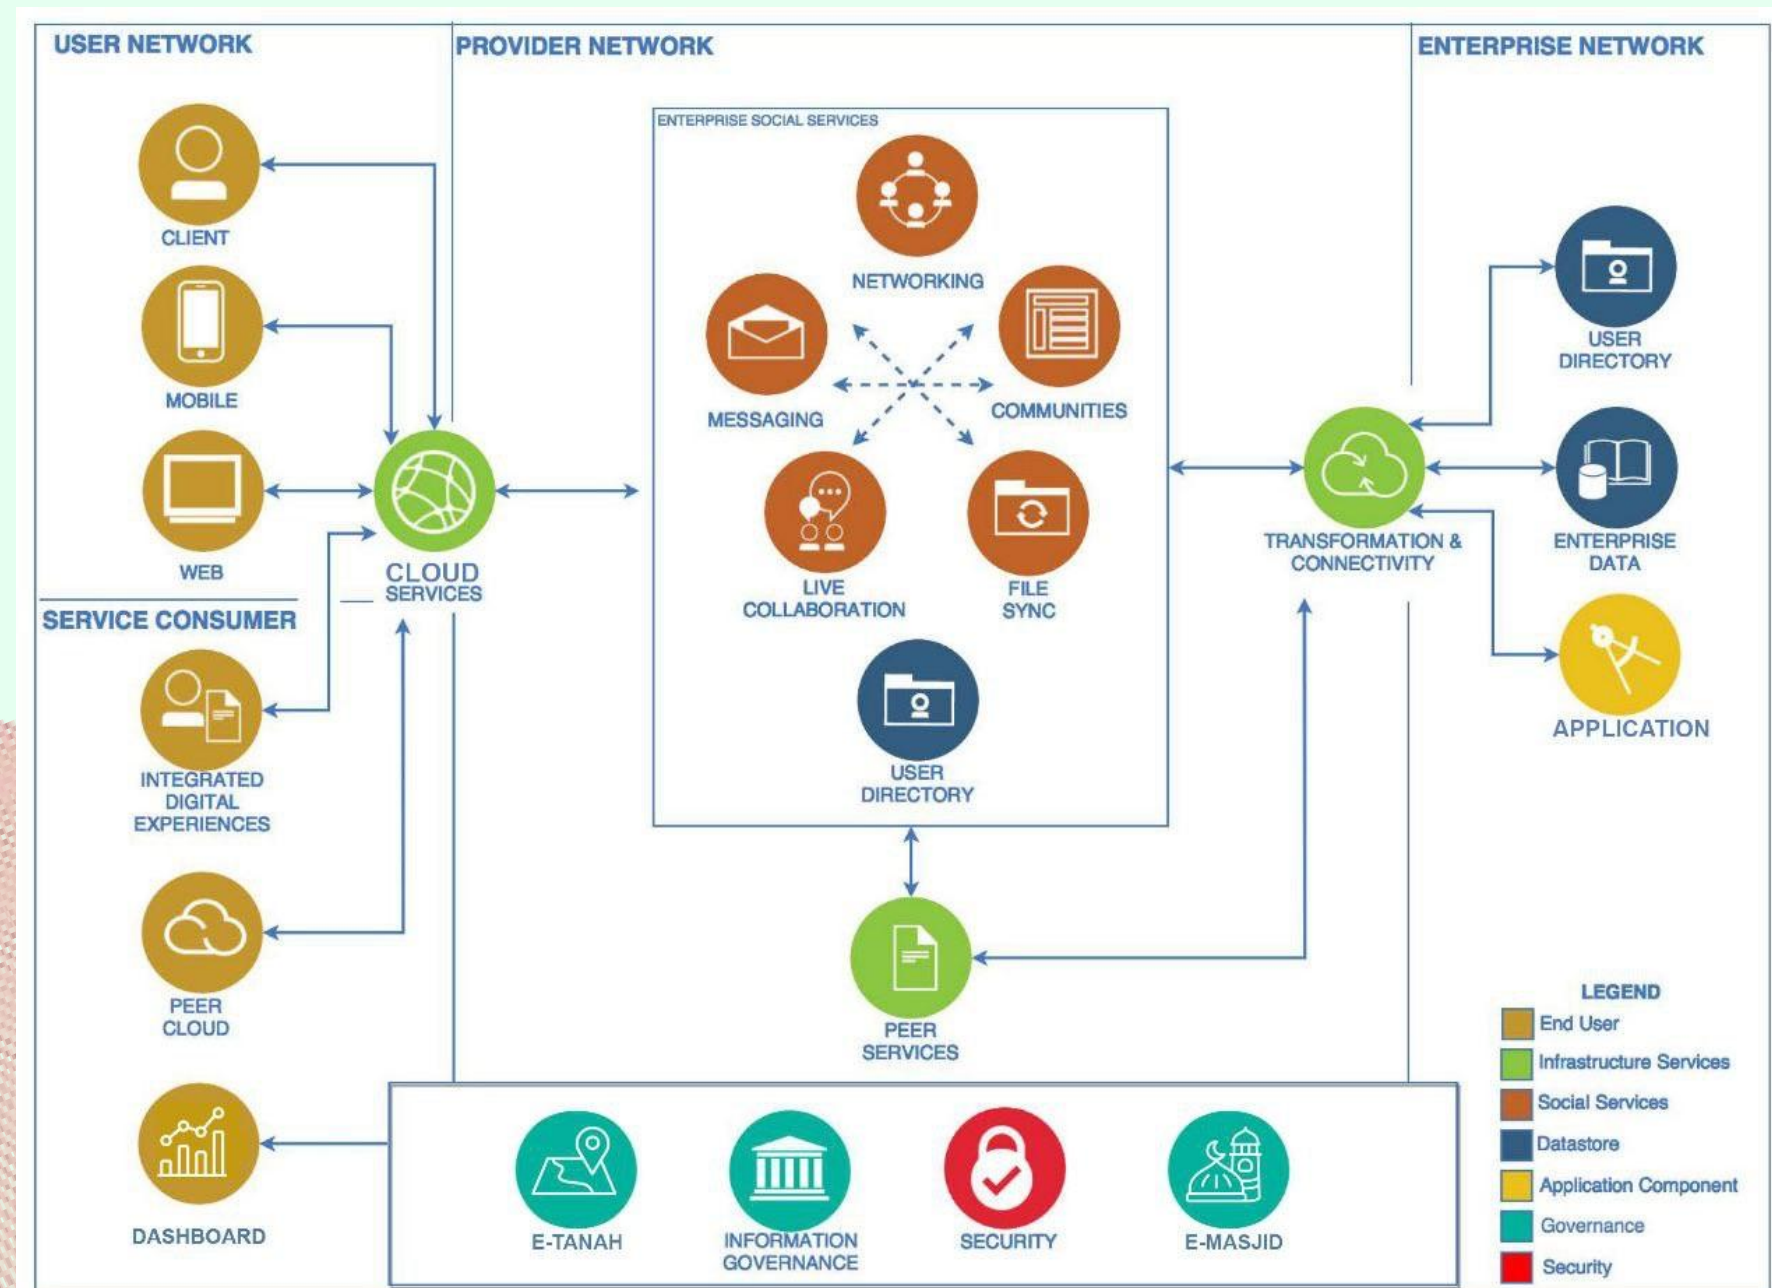

launch mobile services in weeks instead of months. Benefit from our world-class, end-to-end, self-managed services to suit your budget

24/7 Support

MVNO-managed help desk for first line CRM support – with 2nd and 3rd line support through a trouble ticketing module

SSO-DID Components:

Digital – Fintel, SSO-DID, Cloud

Single Sign On (SSO) Digital Identification

- One IC No. to One DID to access SSO services
- Exclusive access and privileges to J1 subs to the JLobby

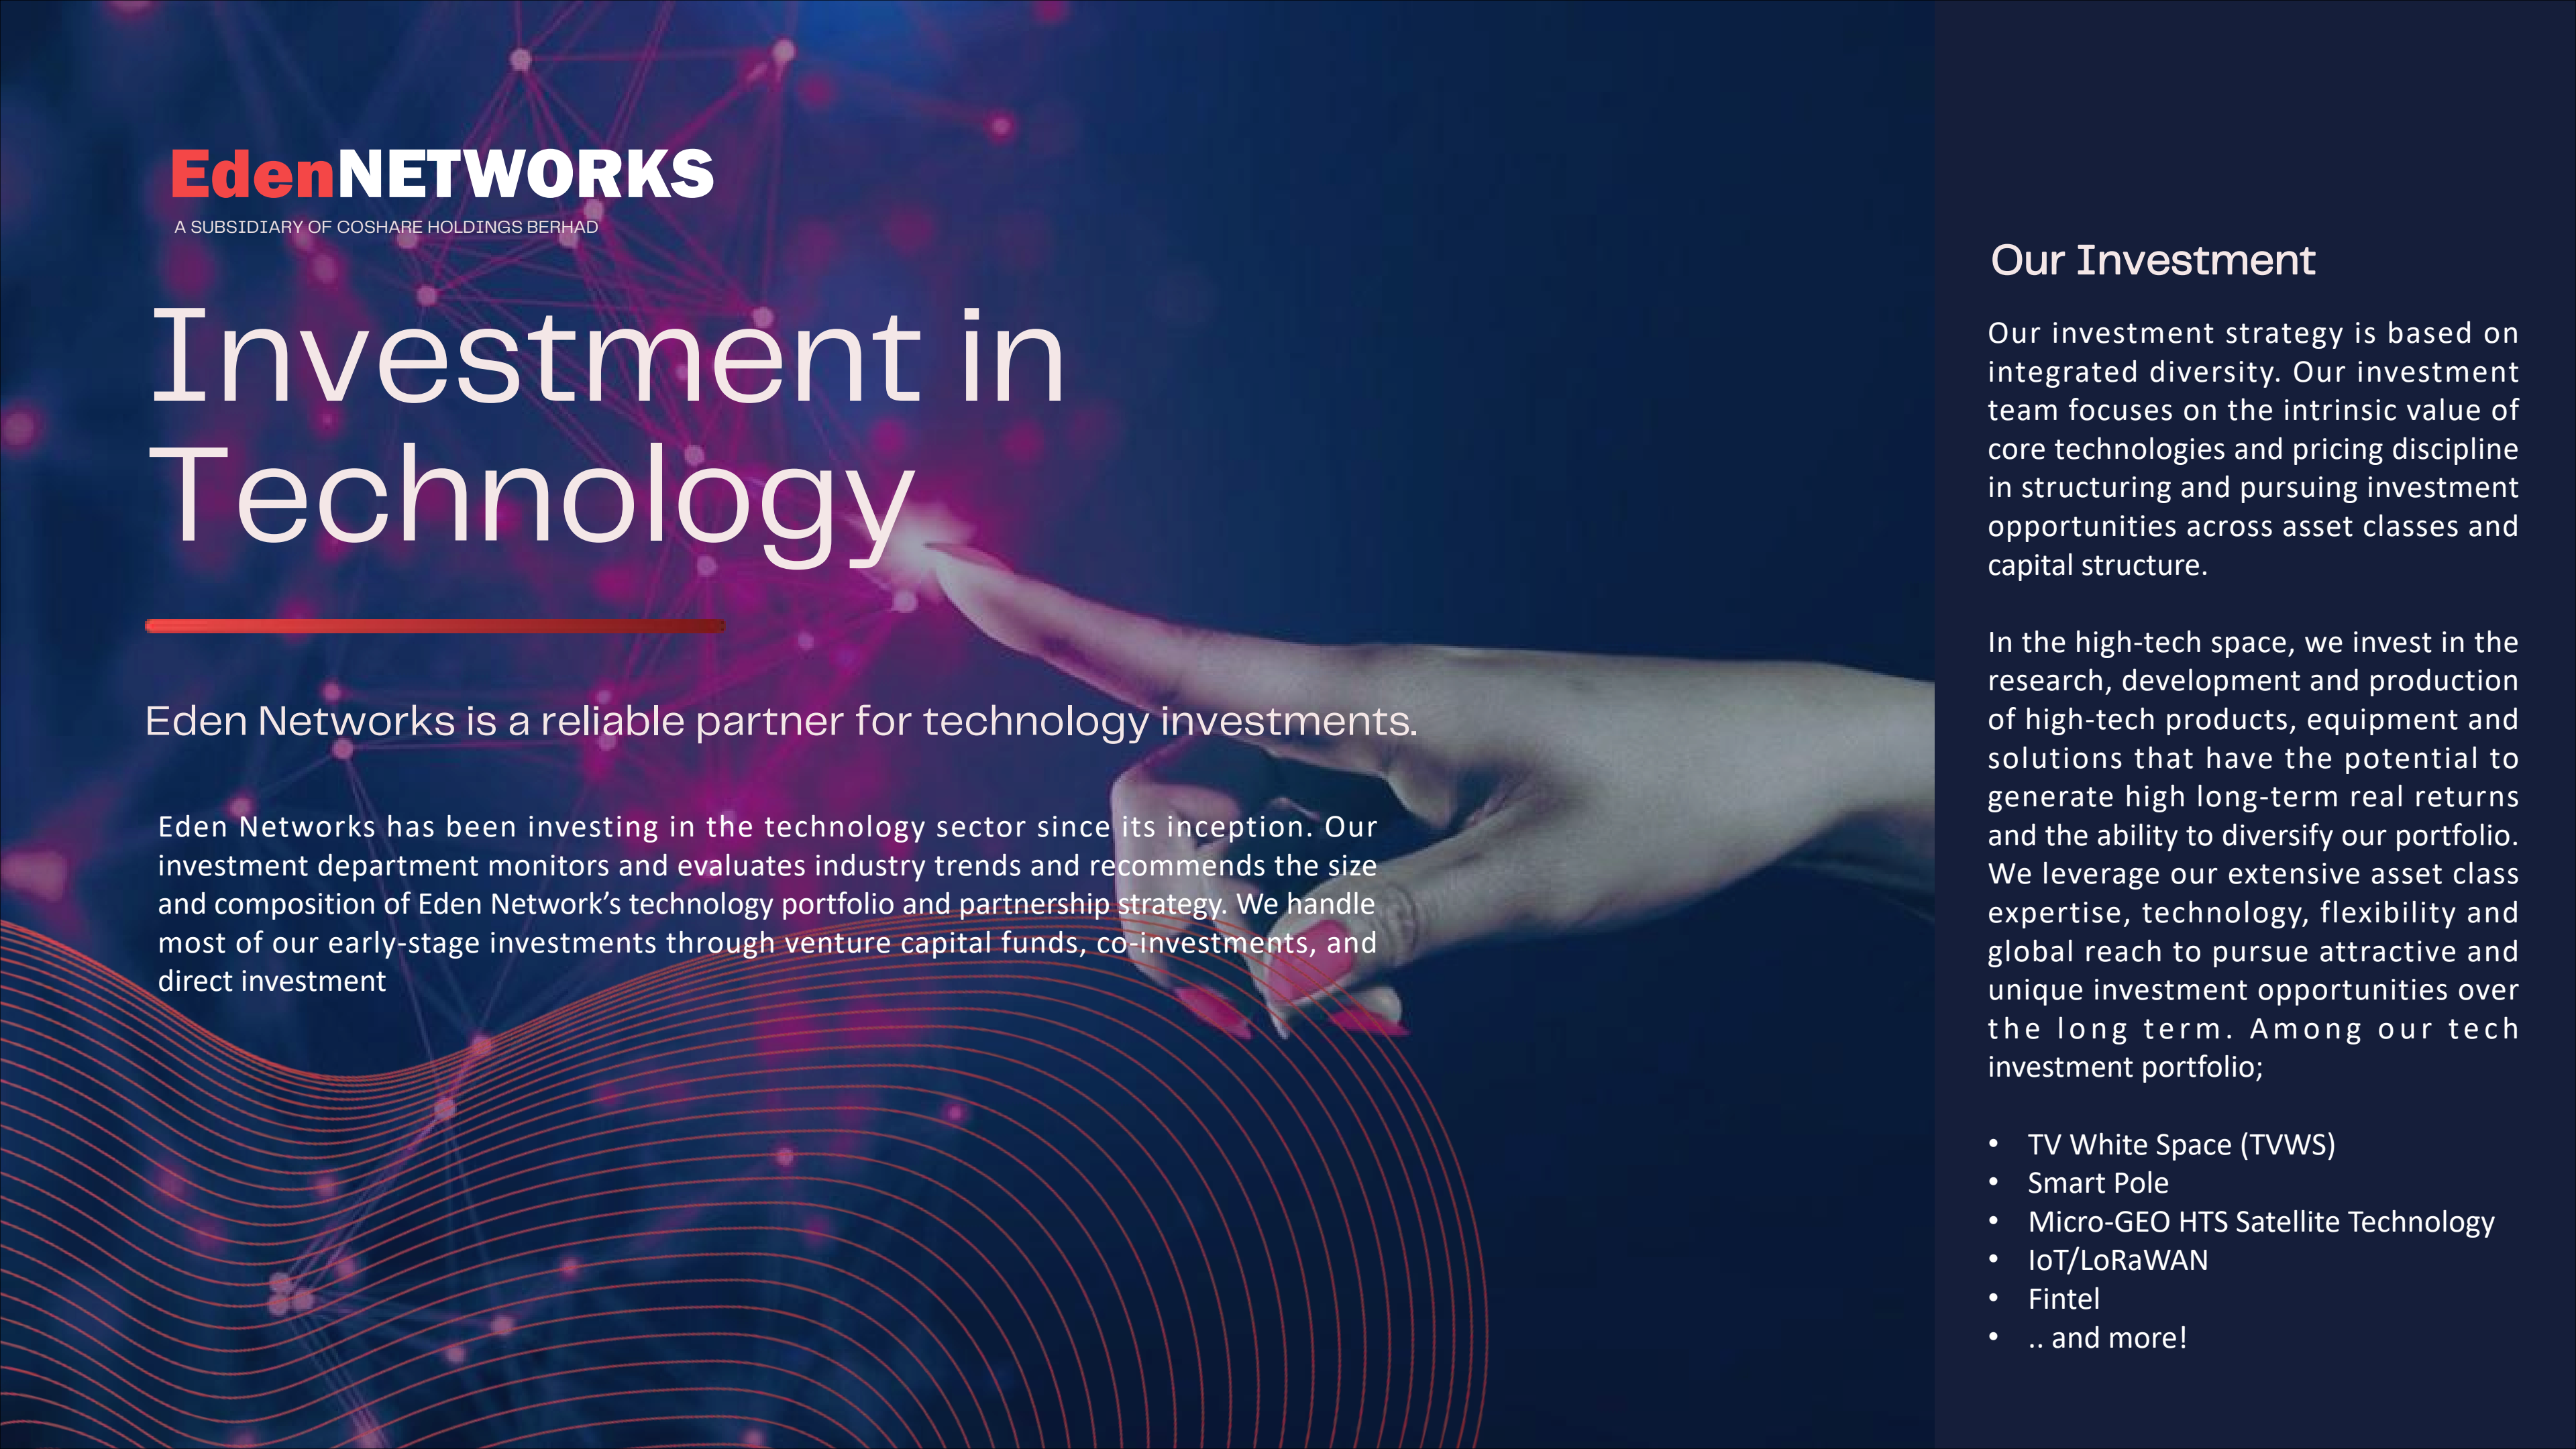

Mobile Telecommunication

- Thick MVNE/MVNO Platform
- Postpaid AND Prepaid services
- Voice, SMS, DATA, USSD, Content

Enterprise Social Network

- ESN platform for cross agency communication
- Digital Market Place
- Airtime/Credit transfer

The background of the slide features a dark blue field with a complex network of red lines and dots, resembling a molecular or digital structure. A hand is visible on the right side, pointing towards the center. The Eden Networks logo is positioned in the top left corner.

EdenNETWORKS

A SUBSIDIARY OF COSHARE HOLDINGS BERHAD

Investment in Technology

Eden Networks is a reliable partner for technology investments.

Eden Networks has been investing in the technology sector since its inception. Our investment department monitors and evaluates industry trends and recommends the size and composition of Eden Network's technology portfolio and partnership strategy. We handle most of our early-stage investments through venture capital funds, co-investments, and direct investment

Our Investment

Our investment strategy is based on integrated diversity. Our investment team focuses on the intrinsic value of core technologies and pricing discipline in structuring and pursuing investment opportunities across asset classes and capital structure.

In the high-tech space, we invest in the research, development and production of high-tech products, equipment and solutions that have the potential to generate high long-term real returns and the ability to diversify our portfolio. We leverage our extensive asset class expertise, technology, flexibility and global reach to pursue attractive and unique investment opportunities over the long term. Among our tech investment portfolio;

- TV White Space (TVWS)
- Smart Pole
- Micro-GEO HTS Satellite Technology
- IoT/LaRaWAN
- Fintel
- .. and more!

Our Experience

Key Expert from industries

Nurazmi Abas
Strategic Management &
International Cooperation

- Experiences**
- Background in Mechatronic and Electromechanical
 - 15+ years experiences in Strategic Management, Telecommunication, Satellite Technology, Commercial launch Program, G2G & Trade Negotiations and Space Policy & Development
